Boy, did you bring on a rush of homesick with your letter
about Gateway Electronics.

I grew up when Gateway was at the 6100 block of Delmar.
Last time I was in St. Louis, the tower was STILL on the roof.

I remember Stu sitting me on his knee showing me how to tune a receiver and Stan showing me how to use a C.B.

That was 30+ years ago.

Next to my father, Stu was probably the strongest influence in my ham/electronic career.

Been in Houston for 20 years. What brought you to St. Louis?

Thanks for the time.
